

Our ASPIRATION

At Astro, we strive to create the best possible work conditions for our employees that includes all the workspaces within which Team Astro operates.

We are committed to operate in a hazard-free workplace. We endeavour to uphold the OSHE policies and applications in our operations, implementing best practices and always challenging ourselves to improve. We aim to achieve OSHE excellence and ensure full compliance with regards to the International and Malaysian Standards.

Our COMMITMENTS**HAZARD & EFFECT MANAGEMENT**

To identify and assess the risks associated in our operations that could lead to occupational injuries, illness, asset and property damage and environmental pollution.

SAFE WORKPLACE

To determine and implement effective risks control and mitigating measures in all business activities, with a focus on elimination, prevention or minimisation of the exposure as far as is reasonably practicable.

SUPPORT, RESOURCES AND AWARENESS

To promote and provide safe systems of work, preventing unsafe actions and substandard conditions that may affect the business operations.

SUSTAINABILITY

To plan and execute initiatives that serve and protect the environment, and to ensure that necessary resources are utilised in a sustainable manner as far as is reasonably practicable.

REGULATORY COMPLIANCE

To ensure compliance with all statutory regulations and requirements related to safety, health and environment.

CONTINUAL IMPROVEMENT

To maintain an effective OSHE management system as an integral part of our business philosophy, driving for continual improvement in our OSHE performance.

LINES OF RESPONSIBILITY

To ensure that all Team Astro and all interested parties (including Business Units, Service Providers and all other stakeholders) adhere to this policy.
